## THROUGH ETHOS

Through our Ethos club we aspire to achieve our vision to strive for academic excellence and the personal fulfillment that allows each of our student to develop as a worthwhile individual, be an asset at home and to our society. We wish to provide platform to provide opportunities within a broad and balanced curriculum so that each child can achieve success and can fulfill his or her potential. Students can be developed as rounded individuals socially, emotionally, spiritually, physically and creatively. They are provided with opportunities to value independence, and enable them to become responsible citizens and lifelong learners. To encourage and enable the continuous professional development of our pupils and display strong partnerships and positive relationships within peers and work towards achieving common goals.

This gives us platform to identify interests and strengths of our pupils and work towards in improving the teaching learning experience.

# PARYAVARAN AWARD CEREMONY

Eco Club, East Point School organised it's Annual Award Function of year 2018-19 on 16/7/2019. The green brigade children showcased their concern for the environment through various cultural activities which included a "Viriksha Vandana", an elocution on environment, a street play and a dance "Namami Gange". The occasion was graced by Dr Chetna Anand, Environmentalist and Scientist, Environment Department, Delhi. Dr Chetna lauded the efforts of the children and expressed her pleasure to find the children active in all areas of environmental concern that their department is emphasising on. She briefed the students and teachers about various activities of her office where the children can pool in data or conduct mini researches, adding that the awakening at student level goes a long way to bring impact on the society. The students and the teachers expressed gratitude for her words of praises and the green brigade promised to adopt her suggestions and be responsible towards the environment.
