"A mother's love for her child is like nothing else in the world. It knows no law, no pity, it dates all things and crushes down remorselessly all that stands in its path."
 —Agatha Christie

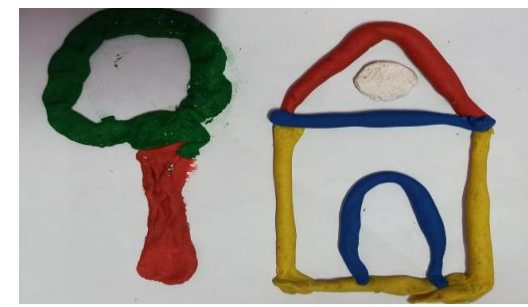

Kids were so excited to make Mother's day card by using their hand prints.

Kids were explained the importance of a mother in our life. They were taught how they can help their parents in day to day life. The celebration was concluded by dance and surprise video for mothers.

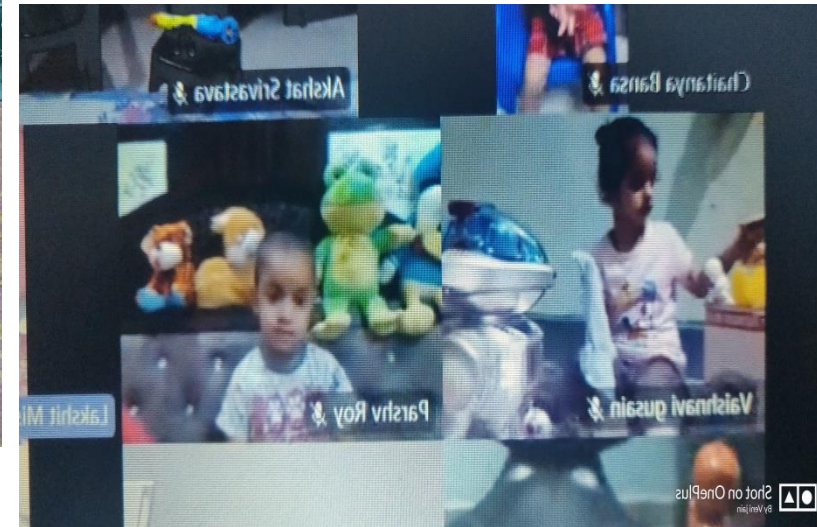

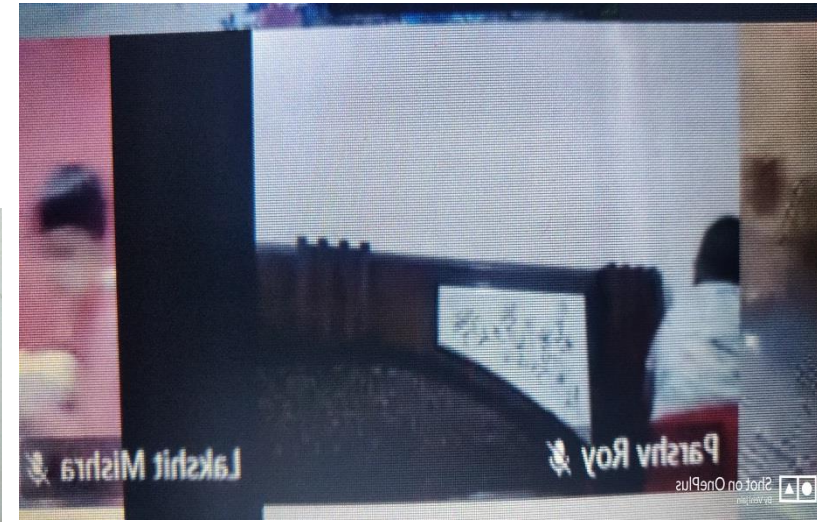

Clay Modelling

Manipulating a piece of clay develops the child's large and small muscles. Clay play fosters eye-hand coordination. Soft clay is receptive and responsive to all kinds of emotional expression.

Toy washing station

We learnt to clean our toys by washing them.

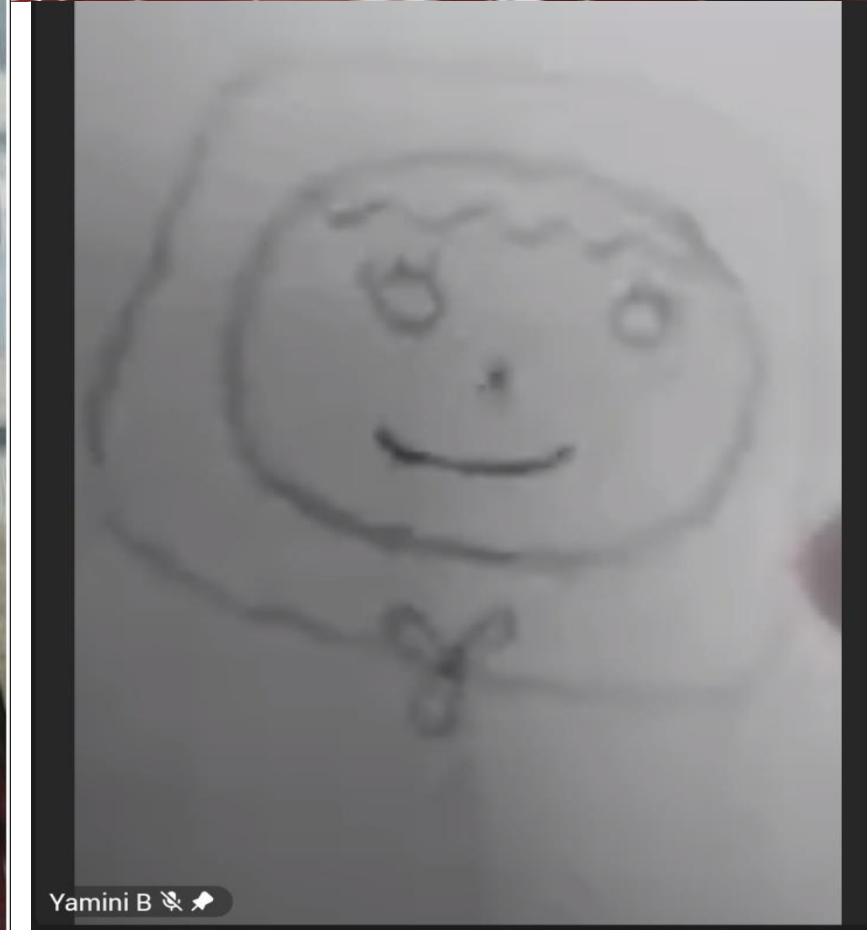

Story telling is a wonderful way to help the tiny tots know sounds, words and language, and develop early literacy skills. The Hare and the Tortoise Story sparked up child's imagination and stimulate curiosity.

Tiny tots enjoyed and were curious to listen the story done using stick puppets and interacted confidently. It was lovely to see little hands making puppets and enthusiastically narrating story.

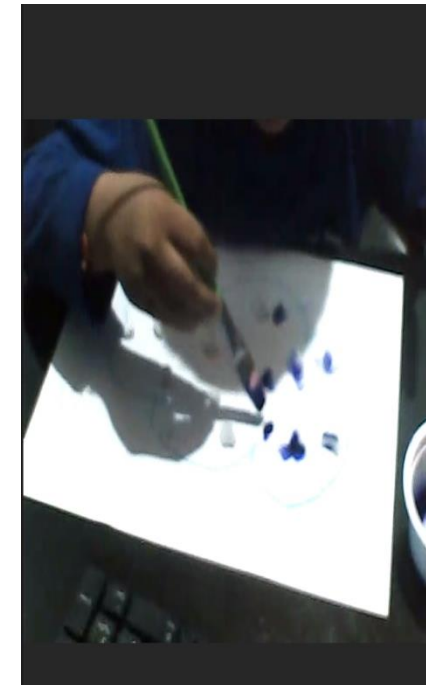

LITTLE RED RIDING HOOD

Blue Colour Day

THE TINY TOTS OF NURSERY CELEBRATED BLUE COLOUR DAY. ALL THE CHILDREN WERE DECKED UP FOR THE CELEBRATION IN BLUE COLOUR DRESSES. THE KIDS PERFORMED VARIOUS ACTIVITIES LIKE COTTON PASTING IN CLOUDS AND PAINTING THEM BLUE. THEY EVEN LISTENED TO A STORY "A BLUE SPARROW". THIS WAS FOLLOWED WITH THE WORKSHEET WHICH HELPED THEM TO IDENTIFY THE COLOUR AND RELATE TO THE OBJECTS AROUND THEM.

STAKEHOLDER'S ADDRESS

It is believed that "What makes a child gifted and talented may not always be good grades in school, but a different way of looking at the world and learning."

I would like to take this opportunity to thank each and every parent for their continual support in making online learning a beautiful voyage during pandemic phase. At EPS we endeavour to give every learner the chance to express herself/ himself through a judiciously planned curriculum. A newsletter is the replication of the same. Each child has his own exclusive qualities and as instructors it is our accountability to foster and develop every student in their early years of education. The curriculum is often revised to ensure that it remains apt to fulfil the desires of our learners. Our passionate and extremely enthused squad of educators work diligently to ensure the very best opportunities for every child.

Headmistress

East Point School

PARENT'S ADDRESS

My both the children are studying in the East Point School and i am very satisfied by seeing their overall personality development. Online teaching during this pandemic is a huge challenge for both teacher and parent but I must say teacher 's are putting their best efforts by using new technologies. I really want to thanks all the teachers for doing so much hard work for creating innovative props, video, worksheets that grab the attention of kids. Time management is something I would not miss to highlight. Being on time to start/finish shows discipline and respect for others time as well. Also other extra -curricular activities like exercise, craft and non -fire cooking etc. not only educative but also keep the children busy in time of lockdown. Thank you so much for all your hard work, Keep up the efforts.

Warm Regards,

Danish Reza

TEACHER'S ADDRESS

Education is not about learning of facts but training young minds to think.” There is a big difference between cramming up facts and learning them so that they can be applied in productive ways. At EPS we try to work towards holistic development of our students by providing them the tools and experiences that encourage our students to think. The aim is to create empowered minds so that students are able to decide what is good for them, differentiate between right and wrong, choose opportunities that help build them up and enable them to live in harmony with all existence. As a pre primary teacher , I am delighted that the school’s values align with my own personal values, including the importance of English language, respect, innovation and a sense of community.

The Eco Club of our school has been involved in tree plantation across the city even before the activity was made popular in schools. We boast of several green spaces that have been developed by our students and environment-related initiatives where our students have contributed to the surroundings .Education imparted here is thus not confined to the class room alone but is moving beyond.
