 इसीलिए ये मेरी इतारी।।

Stakeholder Address

It is believed that "What makes a child gifted and talented may not always be good grades in school, but a different way of looking at the world and learning." I would like to take this opportunity to thank each and every parent for their continual support in making online learning a beautiful voyage during pandemic phase. At EPS we endeavour to give every learner the chance to express herself/ himself through a judiciously planned curriculum. A newsletter is the replication of the same. Each child has his own exclusive qualities and as instructors it is our accountability to foster and develop every student in their early years of education. The curriculum is often revised to ensure that it remains apt to fulfill the desires of our learners. Our passionate and extremely enthused squad of educators work diligently to ensure the very best opportunities for every child.

Teachers' Address

I am extremely sanguine that every stakeholder at East Point School, puts their maximum effort even in these difficult times to offer a shell to foster young minds into empowered discovers.

The constant focus on activity based and reflective learning makes the process joyful. The mutual working of teachers, parents and students creates the best environment for quality education.

"Tell me and I forget. Teach me and I remember. Involve me and I learn."

Learning in its true sense means active involvement which is reflected in the morning smiles on the screen each day and the excitement to start a new class.

This newsletter is our initiative to reflect on all that we did together during this month. Through this I would like to express my deep sense of gratitude towards all the people who are involved in creating the best learning environment.

Happy Learning!
