Stakeholder Address

It is believed that "What makes a child gifted and talented may not always be good grades in school, but a different way of looking at the world and learning." I would like to take this opportunity to thank each and every parent for their continual support in making online learning a beautiful voyage during pandemic phase. At EPS we endeavour to give every learner the chance to express herself/ himself through a judiciously planned curriculum. A newsletter is the replication of the same. Each child has his own exclusive qualities and as instructors it is our accountability to foster and develop every student in their early years of education. The curriculum is often revised to ensure that it remains apt to fulfill the desires of our learners. Our passionate and extremely enthused squad of educators work diligently to ensure the very best opportunities for every child.
