**“Education is the manifestation of perfection inherent in every person.” These words by Swami Vivekananda have been the driving force for us at EPS to continue to strive to achieve greater heights with every passing day. As educators, we are aware of the rapid evolution and changes taking place around the world. This is why innovation and adaptability have been constant for us throughout the pandemic and we continue to design and create new and efficient ways to ensure that every child is able to explore and broaden their horizon. We understand that through 'working together and learning together,' students will be able to reach their full potential. I would like to take this moment and thank all of you for your constant and unwavering support to our staff as we continue our march on the path of knowledge and growth.**
