Children had utmost fun in painting the night sky and counting the stars

Using colour codes helped children to understand place value and number formation

String of words

Abhinav Gupta

Samarth

Students were taught to make string of words from one object.

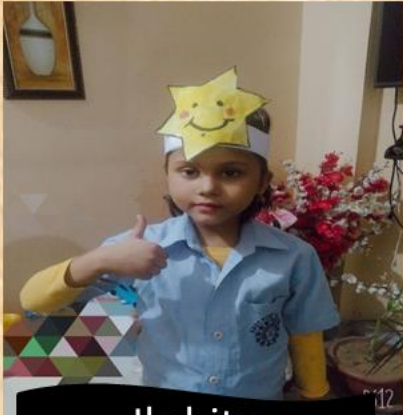

Aryan Thakur

Tanav Diwan

They learnt different words for 'Our Sun' and it also helped in enhancing their vocabulary.

What's in the sky?

Ikshita

Yash

Devansh

Minha Khan

Darshan

Every child dreams of flying in the sky and be among the stars, moon, or even the clouds.

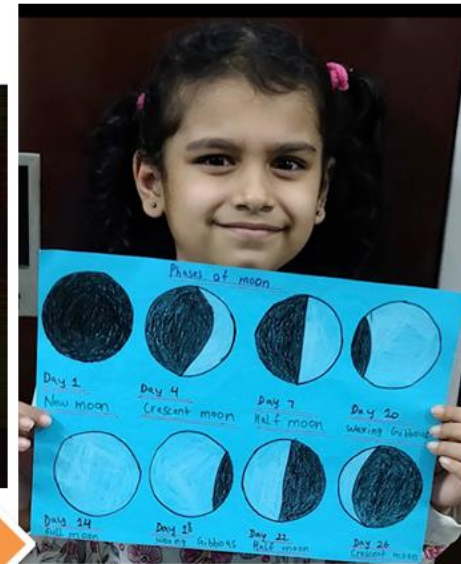

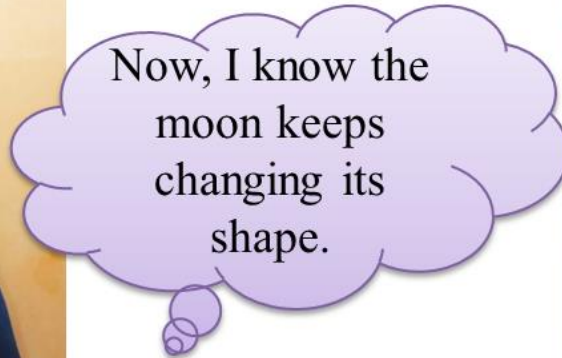

Students created props based on what they see in the sky and spoke few lines about it.
