MATHS ACTIVITIES

Students enthusiastically performed activities such as "Plan a Party" and "Time for each Rotation".

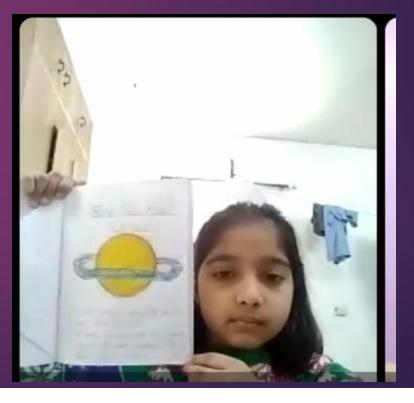

SCIENCE

ROLE - PLAY

Students presented unknown facts about different planets of our solar system in front of the class.

Through Art integration, the topic "Minerals found on other Planets" was introduced, wherein students through puppets showcased their creativity and tried to explain one planet with one mineral found on it along with its uses.

As a part of integrated topic of the month, children enjoyed learning about the advantages of the solar energy and were amazed to learn how food can be easily cooked in the solar cooker. A working model of the solar cooker and solar panel was made by the children.

As the festivities of Diwali were celebrated in this month, the children took pledge to celebrate a cracker free Diwali by making posters, bringing happiness in the lives of people around them and also to celebrate Diwali in an environmental friendly manner.
