# English activity of the month

## Chipko Movement

# Dialogues Between Planets

# Social Studies - NIE activity

Students wrote fun facts about Kamala Harris - Vice President of USA, from the E-Newspapers shared with them.

**NIE**

2. Harris was born in Oakland, California in 1964, to parents who raised her in a household of civil rights activism.

2. Harris is a daughter of an Indian Mother and African-American father.

In 2003, Harris won her first race for San Francisco district attorney, becoming the first Black woman to hold such an office in California. In 2010, she was elected as California attorney general, and in 2016, she became the only second black woman ever-elected as a US Senator.

**KAMALA HARRIS**

**VICE PRESIDENT OF U.S.A.**

**NIE ACTIVITY**

Kamala Harris

2. Harris was born in Oakland, California, in 1964.

3. Her mother Shyamala Gopalan Harris, from Chennai, a cancer researcher, died in 2009.

4. Kamala grew up in the Bay Area but took frequent trips to India to visit extended family.

5. In 2003 Harris won her first race for San Francisco district attorney, becoming the first Black woman to hold such an office in California.

1. Harris is the daughter of an Indian mother and African-American father from Jamaica.

**NIE Activity**

Kamala Devi Harris is an American politician and attorney who is the junior United States Senator from California, and vice president-elect of the United States.

Kamala Devi Harris was born in Oakland, California on October 20, 1964, the eldest of two children born to Shyamala Gopalan, a cancer researcher from India and Donald Harris, an immigrant from Jamaica.

**Kamala Harris**

She will be United States First Female vice president and the highest ranking female elected official in U.S. history. Harris will be also the first African-American vice president. Harris ran for the 2020 Democratic presidential nomination and ended her campaign on December 3, 2019.

**KAMALA HARRIS**

*Diwali activity -  
Article writing on  
'Celebrating  
environmental  
friendly Diwali.'*

Celebrating Diwali and other festivals without causing pollution is the direct need of the hour, if we don't celebrate them in an eco-friendly way, we may not live to celebrate them for the years to come.

All life forms adapt according to the existential challenges and difficulties man included. Man has made his life so complex that he appears to have been lost in the labyrinth he unwittingly or wittingly has woven around himself. One such labyrinth is the labyrinth of environmental degradation. It had been so critical in the entire history of mankind as it is now. Man's thoughtless and short-sighted approach to life mingled with greed and avarice have brought the entire life on the brink of annihilation.

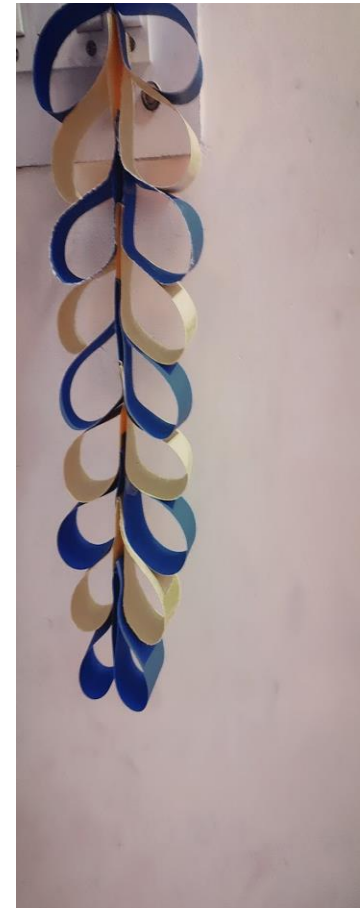

**MOVEMENT OF EARTH**

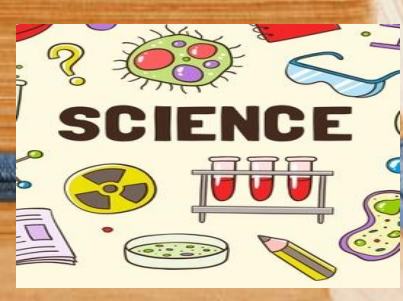

**INTERNAL CYCLE**

All the changes in the movement of the earth take short time. The time taken for the earth to rotate once on its axis is called a day. The time taken for the earth to revolve once around the sun is called a year.

The earth's rotation and revolution are the two main causes of day and night. The earth's rotation is the cause of day and night. The earth's revolution is the cause of the change of seasons.

*Students enjoyed doing the blubber activity to understand how a layer of fat protects the polar animals from cold.*

**Maths Corner:** Students of class V participated enthusiastically in an activity which was based on the concept of time and integrated with the topic, 'Solstice'.

Activity - 1

In the Northern Hemisphere the summer Solstice, the longest day of the year, occurs around 21<sup>st</sup> June. The opposite day the shortest day of the year is the winter Solstice, which occurs around the 21<sup>st</sup> of December every year.

The Longest Day of the Year

City	Sunrise	Sunset
ANCHORAGE	4:20 a.m.	11:42 p.m.
NEW YORK CITY	5:24 a.m.	8:31 p.m.
LOS ANGELES	5:41 a.m.	8:06 p.m.
HONOLULU	6:19 a.m.	7:18 p.m.
REYNOLDS	7:58 a.m.	12:04 a.m.
LONDON	4:43 a.m.	9:27 p.m.
TOKYO	4:25 a.m.	7:01 p.m.
PARIS	5:11 a.m.	8:52 p.m.

Study the given picture and answer the following questions.

Q) In the table you can see that the duration of a day in London is 16 hrs 38 mins, now calculate the duration of night in London.

Ans) Duration of day in London = 16 hours 38 minutes  
 Duration of night = 24 hours - 16 hours 38 minutes

Hours	Minutes
23	60
24	00
-16	38
-----	
07	22

∴ 7 hours 22 minutes

b) Name the country where the sun sets at midnight  
 Ans) Reykjavik

c) In New York city the sun rises at 5:24 am then what will be the time after 8 hours?  
 Ans) Sun rise time in New York = 5:24 am = 5 hours 24 mins  
 Time after 8 hrs from sunrise = 5 hours 24 minutes + 8 hours

Hours	Minutes
5	24
+8	00
-----	
13	24

13 hours 24 minutes = 1:24 p.m.

d) Express the sunset time of Los Angeles in 24 hour clock time.  
 Ans) Sun set time of Los Angeles = 8:08 p.m.  
 (12+8) 20 hours 8 minutes

# Happiness Curriculum Class

Children understood the concept of 'humility' and made cards and gave them to our helpers.

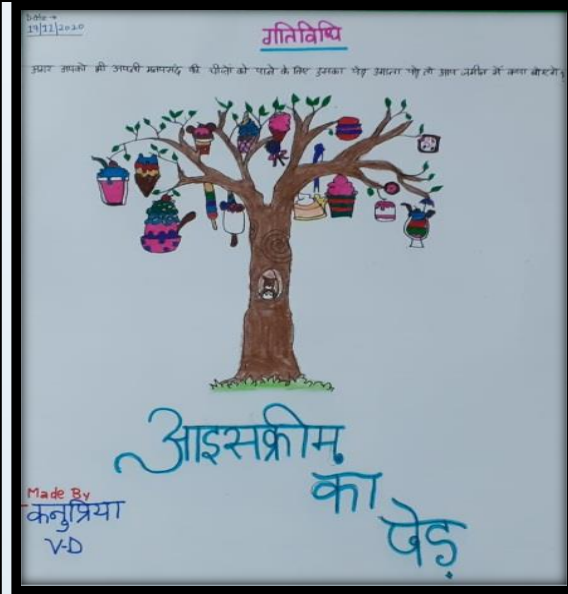

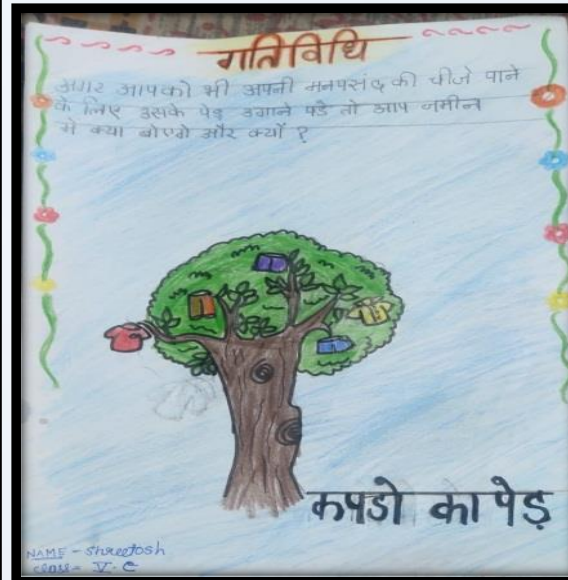

# संस्कृत गतिविधि

विद्यार्थियों ने संस्कृत भाषा में संख्या याद कर "वॉल हैंगिंग" का निर्माण किया तथा विभिन्न प्रकार की शैलियों में प्रदर्शित किया।

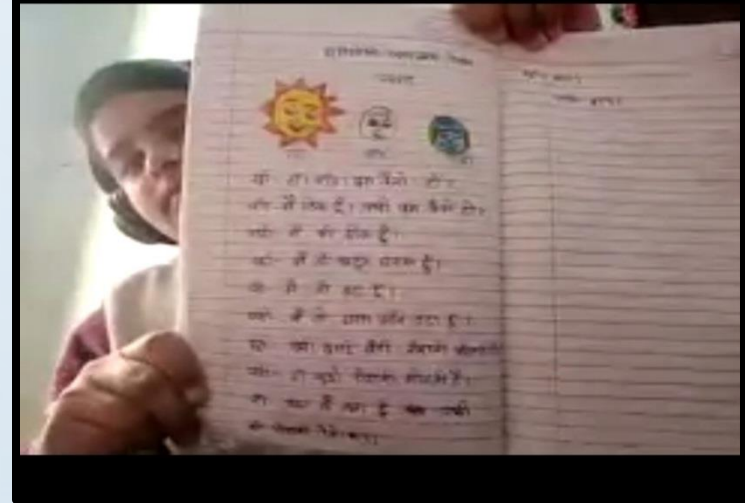

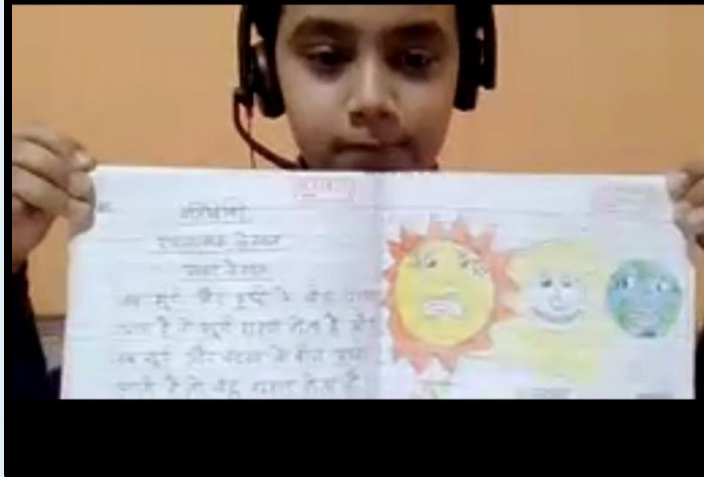

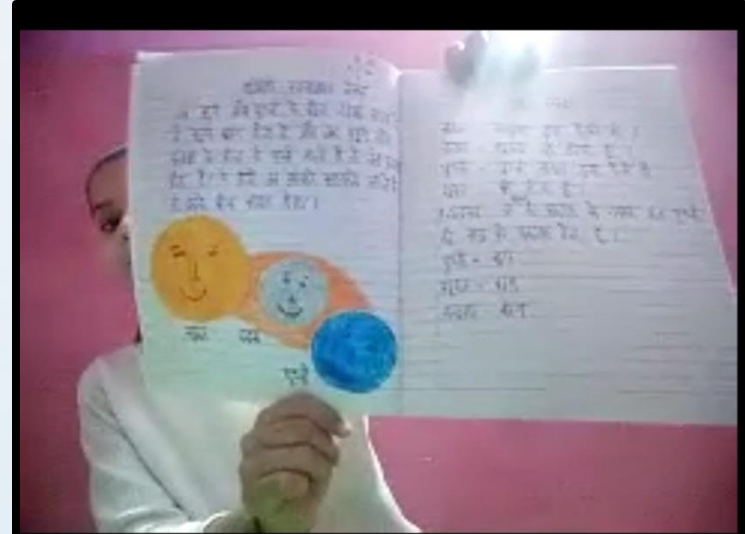

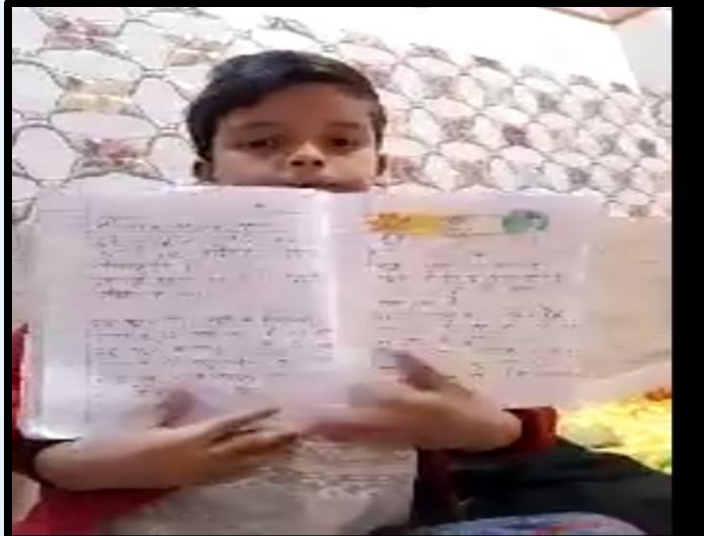

# हिन्दी गतिविधि

इस गतिविधि में बच्चों ने अपनी मनपसंद की चीजों को पाने के लिए पेड़ उगाने की सोची ताकि वो उसे उगते हुए देख सकें ।

# इस गतिविधि में सूर्य ,पृथ्वी और चन्द्रमा के बीच संवाद करवाया गया |

THANK YOU
